Subject: Application reference 6/2018/1996/FULL Proposed development at 77 Brookmans Avenue, Brookmans Park, Hatfield, AL9 7QG

Dear Sirs,

We refer to the above planning application.

We wish to register our strongest objection to this application.

The road surface is already subject to regular heavy traffic with daily congestion at peak times and a further increase in the road population of possibly 16 or more will only make matters worse.

Brookmans Avenue is a private road and further traffic will increase the already high cost of maintenance which residents have to pay for, not to mention possible overcrowding in local schools, doctors' surgeries and other local amenities.

Similarly, the station car park is full every day now so would not be able to accommodate any additional vehicles.

Aside from the traffic and parking issues there is the destruction of a lovely residential dwelling that fits comfortably into the village environment which we as residents have all invested in retaining over the past decades.

Yours faithfully,

Mr and Mrs G J Kilbey

20 Brookmans Avenue.
