Dear sirs,

I would like to comment on and object to the above Planning Application:

I have lived in Brookmans Park since            and at 59 Brookmans Avenue since

This is a quiet respectable residential street with family size homes of individual character. A large block of flats in the middle of the road would not be in keeping

This application, if granted would have an impact on not only the road, but also the village itself.

It could mean 10 or 12 additional vehicles using the road and village and if it resulted in further such schemes, then it could be devastating.

The parking in the village is already poor and the whole village atmosphere would be affected and eventually ruined.

Yours faithfully

John Horlock
