Subject: Application Reference 6/2018/1996/FULL

Good morning.

In relation to Application Reference 6/2018/1996/FULL, 77 Brookmans Avenue I am writing to express my view.

The application is to build 8 x self-contained apartments. Whilst we normally do not object to developments the building of 8 apartments together with an underground car park is very much out of character for a street mostly comprising of large single family properties which are all two storey dwellings with some having discreet loft conversions. This application would lead to increased roof heights and a motivation for other owners to follow suit. This would undermine the village of Brookmans Park, create more traffic and change the character of the road. It should also be noted that the road is used daily by students attending Chancellors School with much daily footfall. The present character of the road allows this to be a relatively safe journey.

Many thanks Tony
