Hi Louise,

I have taken a look at the above proposal including the tree protection plan, proposed planting and planting methods.

The proposed landscaping is considered appropriate and sufficient for the site as are the tree protection and planting methods.

In light of the above there is no objection to the above proposal on landscape grounds.

If you have any further queries let me know.

Kind regards,

Ollly

Dear Ollly,

Chris has asked when making his comments on the committee report whether you have any landscape comments.

Thanks
