Comments	<input type="text" value="08/07/2019 - Lorraine Davis The properties could be incorporated onto the existing ARRC scheme. The development would require 3 x 1100l containers at a cost of ?390.00 each and 1 x MRC (Mini Recycling Centre) at a cost of ?560.00. The bin store would need to have a clear unobstructed path from bin store to freighter with a dropped kerb to manouvre the bins down. As this area is often heavily parked, there would be a need to have a clearway area where the freighter can stop to load without causing obstruction to the traffic flow. This would be my main concern on the collection service for this development."/>
