Comments	<input type="text" value="Thank you for consulting The Gardens Trust, of which HGT is a member. The cottages at 52/54 Bridge Road are a pair of estate cottages built by Earl Cowper in 1876 on the edge of Sherrards Park Wood, which has been in existence since at least 1599. Bridge Road itself is the southern boundary of these historic woodlands and has been for centuries. These cottages are noted in the WGC CA Appraisal. Development to the rear of these cottages would severely harm the setting of the cottages, which pre-date the Garden City, both in the approach to it via the proposed drive and the destruction of the rear woodland aspect. It would , in addition, be an intrusion into an area which has formed part of the historic woodland for years and introduce a built element close to the line of the old railway, currently a green walk for the residents of the Garden City. We consider this development inappropriate and harmful in the location."/>
