<b>Comments</b>	<input type="text" value="I live directly in front of the bio park and feel that the height of the proposed development would be an infringement on my privacy looking into my garden. We have long floor to ceiling windows and the development would be able to look directly into my house. The development at the shredded wheat site next door is also high and we would feel surrounded with obtrusive and obstructive blocks. There already is a problem getting doctors appointments due to the high number of residents in the area.and the schools will become overcrowded. The infrastructure for this large development is not available in wgc with the huge number of building sites and new flats being built."/>
