Comments	<input type="text" value="In no particular order, my home is facing directly to the planned project: - noise and air pollution during demolition & construction will affect my life especially as a key worker working from home on top of the ongoing construction from Wheat Quarter. - The proposed number of the parking spaces is not enough for realistic usage. Experience with ongoing Wheat Quarter construction has already increased the private parking spaces being occupied by non-owner frequently. This will get worse with the planned project, and their non-realistic future residents'/visitors' parking spaces. - Privacy. Their proposed height of flats can block the sunlight that my home will have and my privacy as all my windows are facing directly to their proposed buildings. - Dramatically increased pressure on local schools, medical services etc."/>
