Comments	<input type="text" value="289 Units are proposed to house 852 people in a very restricted site, with building height to 9 storeys. This contradicts WHBC's own vision for Broadwater Road west which was to integrate the spirit of the Garden City with the very best of 21stcentury design. It has no design links with the its surroundings or the rest of the town. It will compromise the Broadwater Road street scene, overpowering the art deco and Mirage developments to the south. It is inappropriate for a Garden City due to its large scale, high density of homes and minimal greenery. This development offers only 216 parking spaces for 289 homes. There is no example where a development without adequate car parking has worked. Other sites within the borough, such as villages with high public transport accessibility, appear to have been ignored despite their suitability for development."/>
