Comments	<input type="text" value="This application contradicts the Borough Councils own Broadwater Road SPD. Any buildings should be no higher than 5 storeys! The height is such that it will be able to be seen from Hatfield House. This is a very restricted site. There is nothing of the Welwyn Garden City ethos to find here with the proposed designs of the buildings. The density of build is far to high for a town like Welwyn Garden City which has International fame. The developers need to go back to the drawing board and start again. This application should be refused as overdevelopment!"/>
