<b>Comments</b>	<input type="text" value="The proposal contravenes the Council's own vision to integrate the spirit of the Garden City with the very best of 21st century design It is high density, high rise and with very little green space It can be seen from the West side conservation area and Hatfield House It overpowers other developments to the South It goes against all Ebenezer Howard's principles for a healthy lifestyle and is not fit for the potential new era of on-going epidemics or pandemics (which many scientists say is with us for ever) where perpetuating his vision is now more important than ever"/>
