Comments	<input type="text" value="It is extremely disappointing that such developments are even being considered for our world renowned garden city. The proposals are totally in contravention of a garden city ethos. The infrastructure is not set up to cope with the additional population, traffic and congestion. It appears very regrettably that absolutely no consideration has been given to anything this once beautiful town represents and a complete disregard to the current residents and the heritage of the town. This is objected without limit and we the residents will object until this decisions are overturned. Those who are profiteering from these illegal plans will be found and reported to national press."/>
