Comments	<input type="text" value="They are grotesque and the complete opposite of what WGC supposedly stands for. If these are allowed, this is only the beginning and you'll have to start allowing all similar applications until we will live in a disgusting concrete jungle that is no longer a 'garden city' and somewhere that residents no longer recognise or want to call home. And where are the new schools and doctors surgeries being built to cater for all of the people that this development will bring? Our doctors and schools are already full to capacity, doctors at local Peartree Surgery are struggling to see all the patients who need them and residents struggle to get an appointment, and this development would make this problem even worse. If these go ahead they will be the biggest blight on our lovely town, and residents will be ashamed and completely let down by a council who let this happen."/>
