<b>Comments</b>	<input type="text" value="As a resident, parent of young children,lover of architecture and someone who feels passionate about the ethos and beginnings of the Garden City I object to this application. It's unacceptable that the planners and developers think that they can bulldoze the existing residents of this beautiful town to allow this huge development to take place. What do you take us for? We jump through hoops and spend a lot of money to maintain estate management policy and this monstrous carbuncle is proposed as something that will benefit our town.I think not. Where do you propose-familie that live here send their children to School.My children's primary school is in a dire state of disrepair,It's over subscribed. Try getting a doctors appointment or dentist appointment, what about strain on our non existent hospital, urgent care and out patients site at the new QE2, roads, traffic, bus service, parks for children, the list goes on.Where are the gardens? It's a Garden City!"/>
