Comments	<input type="text" value="10 storeys is completely contrary to welwyn garden planning application policy so why is it allowed for this development? I am supposed to get permission to change anything on the front of my house in wgc to meet the strict policies in place for the look and feel of welwyn garden but this plan flies in the face of all of this. Green spaces have all but disappeared from the original plan also, which looked so appealing from the original plans. Given the current pandemic people need wide open spaces not great concrete behemoths. Where also is the underlying infrastructure needed for the additional thousands that will be added to the population? A new GP surgery? Schools? A supermarket? The scheme is just aimed for people moving out of London to buy somewhere cheaper to commute in, which given the current pandemic has completely changed. As a whole the plan is not fit for purpose and totally contrary to the values we all have to stick to in wgc on a minute scale."/>
