

Planning Application 6/2020/3420/MAJ

I am writing to object to the above Bio Park proposal. Every aspect of the revised plan is an antithesis of the ethos of the Garden City. In particular, the density of the dwellings is far worse than the vast majority of social housing in metropolitan areas in the UK. Scant regard has been paid to the commensurate enlargement of the required infrastructure, the net effect being a degradation of the current situation for many of the established residents of the town.

The proposal, coming as it does so close to our centenary, is an insult to everybody who has worked to make the Garden City what it is today.
