Comments	<input type="text" value="I moved to WGC because of the open spaces and to get away from a city full of tower blocks. its a lovely place to live and numerous tower blocks will not only spoil the environment but put severe stress on the local infrastructure such as transport & health services. Getting an appointment with a GP is very difficult and a wait of weeks for non-urgent referrals. I commute into London and the trains are very busy esp at peak times and weekends ,getting a seat is impossible. Before additional homes are built the infrastructure needs to be in place and the impact on the environment."/>
