Comments	<input type="text" value="Clearly the infrastructure of the Town will in no way support such a vast increase to the population, we are regularly faced with water shortage already. The provision of medical services would be totally inadequate. Evacuation from the site would put risk on all services.. Transport is under tremendous pressure, supposing these residents will be commuters. No provision for adequate Parking. No recreation outside space. The impact of the density proposed at a time when the opposite is recommended must be considered please."/>
