<b>Comments</b>	<input type="text" value="It is with great concern that I raise this objection to the revised proposed plans for this application. The additional enlargements of the plan, the height of the building and the reduction to green space that this application would create would greatly diminish the overall aesthetics and ethos that this town was created under. Developments in this town should be sympathetic to the town and not turn it into trying to make as much money as possible and pack them in as much as possible by developers who clearly have NO interest in protecting this town and its future."/>
