Comments	<input type="text" value="All that's is being shown is what will be built, however there doesn't seem to be any regard for the infrastructure to support these extra dwellings. The road network will not change, the parking is inadequate, the facilities such as doctor surgeries, dentists and schools etc have not been factored in. The Garden City was supposed to limit exponential growth and this also seems to be disregarded. Rather than packing as many dwellings as possible on the site have a rethink and include some/all of the items mentioned above"/>
