Organisation	<input type="text"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Hello I have just been looking at these plans and whilst I agree that Welwyn Garden City needs more housing - I feel this should be low level housing. Tall buildings are not in keeping with the look and feel of Welwyn Garden City. They will be the first thing people will see when they arrive at the train station and are not an fair representation of the values of feel of Welwyn Garden. They are too tall, too compact and there is not enough green space. There is no adequate parking and it does not look like there will be enough amenities for the residents of Welwyn Garden. We already have a problem with residents not being able to register with a GP and being able to get a GP appointment, schooling is also an issue. Lister Hospital is not able to cope with the current population and this will only add to the problem. Recently there have been a number of flats that have been built in the town centre. which are in keeping with the Garden City . I strongly object."/>
