Comments	<input type="text" value="The increase in storeys and dwellings will have a negative impact on the area that will last our lifetime. These will not become homes, people can take pride in nor where anybody would want to live and bring up a family. It will become a crammed run down estate. People need access to light nor a green space, such as a field or garden. This is the concept the town was built on and this proposal is the opposite. Nine storeys is inappropriate for a garden city, that recommends 5 is the maximum, 10 is unacceptable. This development will change the town forever, please make the developers stick to the plan that was approved 3 years ago"/>
