Comments	<input type="text" value="I strongly object. There is unreasonable development suddenly occurring in WGC without consideration for the GREEN in the garden city. The whole idea behind a garden city is space, with lots of greenery. However, with this development we are heading towards a concrete city. In addition, there is no consideration to the increased pressure on schools, doctors surgeries, policing thereby making people's lives even more stressful and unhappier. Please do the right thing and think with humanity in mind, not profit."/>
