Comments	<input type="text" value="The first duty of any architect or developer should be, in my opinion, to be a 'good neighbour'; to reflect and enhance the setting and local community. It is clear that the proposed development is on a disproportionate scale, a surprisingly tall giant that far from solving problems will create them. The height of the building will be a permanent blot on the heritage of the Garden City and even worse, there is no account taken of the impact on infrastructure. Issues of car parking, social housing, and other key challenges are ignored. I strongly object to this development."/>
