Comments	<input type="text" value="What's being proposed for this side of town is shocking. These plans are not in line with the nature of our Garden City. Small flats to cram in as many as possible, when the market is already saturated with flats as people want houses with gardens as a result of lock-downs. No infrastructure to support this and I have read many references to Welwyn Ghetto City on social media. Surely this can't be permitted, high rise flats in a garden city. The town will grind to a halt, crime will soar and this area will become a no-go at night. I can't believe that this is even being considered and would like to ask if any of the people who make the decision actually live in WGC? There have also been references to brown envelopes and backhanders on social media. If this does go ahead, how can it be justified? Planning rules are so strict in this town yet when there is money to be made by individuals, the rules that we all stick to seem to go out the window. Respect Ebenezer Howard."/>
