Comments	<input type="text" value="Whilst I appreciate that there is a need for housing, the proposed site places significant pressure on already overstretched infrastructure - doctors surgery, dentists, parking (EV or any kind of residents parking)- I appreciate that the ethos is a concern for some, but at some point progress does need to happen, but in reality all that is being done is maximising units without providing any sort of additional infrastructure to support it. The site is really crammed with almost no social spaces, play areas, community hubs."/>
