Comments	<input type="text" value="Here 289 units are proposed to house 852 people in a very restricted site, with building height to 9 storeys. This contradicts WHBC's own vision for Broadwater Road west which was to integrate the spirit of the Garden City with the very best of 21st century design. There is nothing of the Garden City spirit here. The development is clearly seen from the west side Conservation Area, as well as from Hatfield House. It will compromise the Broadwater Road street scene. This is totally inappropriate for a Garden City due to its large scale, high density of homes and minimal greenery. It has no kinship with our unique town. This development offers only 216 parking spaces. There is no example where a development without adequate car parking has worked. Other, more suitable sites with good public transport accessibility, appear to have been ignored. Please stop allowing developers to squeeze in people with no space, no parking, no thought to the future."/>
