| Comments | <input type="text" value="Please forget about the implacable nimbys' incessant objections to every proposed development and proceed at pace with this excellent project. We need starter homes close to the station and this location is perfect. These homes will go a long way to delivering on the WGC Local Plan target and will help minimise building on the green belt. The selfish nimbys and belligerent local Lib Dems seem prepared to fight tooth and nail to preserve their existing privileges and hold back to younger generation who just want the chance to have their own home. Blocks of flats will certainly look a lot better than looking at a decaying industrial site for the next decade or more and will breathe new life into the town centre. Take courage and do something to benefit the future generation."/> |
