Comments	<input type="text" value="This is a Garden City. Has anyone who submitted these plans looked back at the history of the Garden City movement and the ethos it's founders followed to create it. The proposals are made by a company who wants maximise their profit by cramming as many rabbit hutches into the available space as possible. The buildings are far to high. Yet even more flats to be built in WGC ! Where are the houses for families to live in?"/>
