Comments	<input type="text" value="The proposed plan will ruin the peaceful neighbourhood that Welwyn Garden City once was. Such high rise buildings have no place in such a family friendly neighbourhoods. The new buildings will take up green space and turn the WGC into something that nobody wants. It is incredibly upsetting that a corporation is trying to increase the population in a small town that was never designed to have so many people. This is not London and should not turn into such a thing. The exact reason why people move to WGC is to live a peaceful family life in a low population density area. The plans completely disregards what WGC stands for profit. It will degrade the living conditions in the town and ruin all current residents lives."/>
