Comments	<input type="text" value="These plans are not conforming with nor in compliance with the values of Welwyn Garden City's founding 'fathers' ideal of greenery and open living spaces. There are not enough parking spaces for the number of proposed flats. This would lead to an invasion of interloping parked cars and encroachment by commuters on the side roads/streets and I happen to live on one. There are no extra educational facilities planned for the added influx of tenants. Nor are there any extra amenities for the local residents which would invariably lead to a stretch of the available resources and an increased demand for places at the GP's, dentist, nursery school places etc."/>
