Comments	<input type="text" value="I object to the planning proposal for Broadwater Road at it is entirely inappropriate for a Garden City due to its large scale, high density of homes and minimal greenery. 289 units are proposed to house 852 people in a very restricted site, with building heights to 9 storeys. This contradicts WHBC's own vision for Broadwater Road west which was to integrate the spirit of the Garden City with the very best of 21st century design. There is nothing of the Garden City spirit here. It has no kinship with our unique town. This development offers only 216 parking spaces for 289 homes. There is no example where a development without adequate car parking has worked. Other sites within the borough, such as villages with high public transport accessibility, appear to have been ignored despite their suitability for development. These plans will be detrimental to our town."/>
