To all members of the Development Management Committee

I am writing again to express my concern over the latest planning applications for three separate sites in Broadwater Road to increase the height of some of the proposed buildings to even greater levels. If the application to be considered first on 12th August is agreed, this will set a precedent for the other two applications. In my opinion, these proposals are totally inappropriate for our town which was designed as a garden city, offering its residents a healthier, spacious and more attractive environment in which to bring up their children.

I trust that the council will oppose these alterations to the original plans in the strongest possible terms and encourage the developers to get a move on with the plans agreed ages ago so that we can continue to be proud of our world-wide reputation as a GARDEN city.

Thank you in anticipation of your opposition to all these three proposals in their latest forms.

Yours faithfully
