Comments	<input type="text" value="I object to the developers to build a 10 storey high housing complex in 3 seperate sites, The Biopark, What Quarter - North of Hydway and Southside - South of Hydeway. I have moved out of London to relocate to a nice open space, peaceful and green part of Hertfordshire and to get away from the number of highrise. By starting to have this will have serious damage to WGC and what it stands for. The government as at 2019 set of accounts has over 875M of Net assets (less all liabilities) which makes it sustainable enough on it's balance sheet. So i am struggling to understand the clear rationale to build highrises?"/>
