Comments	<input type="text" value="I would like to register my objection to the proposed Bio-Park development. In common with the proposals for the former Shredded Wheat Factory site, the developer's intentions seem utterly incongruous with the principals and ethos of WGC. The proposed 9 story building will be both visually jarring and house such a density of occupants that there will be a significant impact on the local infrastructure. Our Broadwater allotment site is adjacent to the Bio-Park and we are very aware of the high traffic density that already exists in that area. As such, I would strongly urge the Council to reject the application in its present form. Andrew Hepher (Chairman, Longcroft Allotment Association)"/>
