Comments	<input type="text" value="I object to this proposed development on the grounds that it is it is ghetto living (too many people in too small an area) and not in keeping with the ethos of a garden city. The proposal involves buildings that will be higher than anything in the surrounding area that will transform the character of the area in an adverse way. The city is currently already in need of extra provision for schools, medical and policing and this development will stretch the infrastructure beyond its capacity. The housing itself does not cater to the needs of the families that it is being marketed to as there is not enough green space provision."/>
