Comments	<input type="text" value="The new proposal increases the number of dwellings from 643 to 929 and building height to 10 storeys. This contradicts the Broadwater Road SPD limiting building to five storeys except in exceptional circumstances. The development will compromise the Broadwater Road street scene, overpowering the neighbouring art deco Griffin Place and Mirage developments. It is inappropriate for a Garden City, being too dense in nature and lacking greenery. External green spaces have been lost and replaced by big new building infills. External spaces are essential in a post-pandemic world. It has no kinship with our unique town. It will house just over 900 more people than proposed in the 2019 application. The local infrastructure is inadequate to sustain this many extra people. Other sites within the borough, such as villages with high public transport accessibility, appear to have been ignored despite their suitability for development."/>
