Comments	<input type="text" value="The scale of this development is much too large. The tower blocks are out of character with the general town and should be reduced. The proposed amenities do not support the volume of people they will need to support. There is not the infrastructure to support such a large growth in people and families, doctors and school needs all being remote and will necessitate car journeys. There is insufficient provision for the cars to support such a high volume of families and guests."/>
