Comments	<input type="text" value="As a resident of WGC for over 30 years, I am deeply concerned that the density of this proposal goes against the ethos of a Garden City. While I appreciate that more housing is needed, I feel that destroying the essential character of our town serves nobody. I am concerned that the added infrastructure in terms of schooling, health care facilities, parking, road congestion has not been thought through. We have already featured in such publications as the Economist (article headed Concreting over paradise) and there is palpable local objection to the developments along Broadwater Road. I strongly urge you to reject this proposal."/>
