Comments	<input type="text" value="i would like to object to the continuing development of the Broadwater sites as this seems to be progressing with out any local facilities whatsoever. Facilities such as open spaces, sufficient green areas for local residential use, doctors, schools and residential support services. The maintenance of the ethos of WGC, to the forefront for a century is now being neglected and overrun by the need to meet unrealistic central government targets. Continuing the vision of a garden city is critical for is all especially the new residents the council claims to support."/>
