Comments	<input type="text" value="I object to the building of high rise flats in Welwyn Garden City because we need family homes with gardens not hundreds of flats. I have lives here all my life and for a few years my husband and I lived in the flats at Athelstan Walk North which is right by this site. Our flats only had 3 floors which is enough. We are in danger of loosing our beautiful garden city, as it drowns in multiple high rises and loses its gardens. Although the areas being developed were never pretty as industrial business' they didn't consume the skyline. Our children and young families need to be given the right to a house with a garden for their children to grow in. We have children with mental health issues, who won't cope with life in a flat. These new homes aren't for the likes of us are they. They are for people earning high wages, many of whom commute to London. Please don't let them destroy our beautiful city."/>
