Comments	<input type="text" value="I fully support this development and others like it. There is a housing crisis in the south east and first time buyers are finding it impossible to find a decent place to live at a reasonable price. If we listened to the older, already homeowners objectors then nothing would ever be built anywhere, further condemning the young to rent for the rest of their lives. This development is on the other side of the railway so will not spoil the town's aesthetics at all. It is also right next to the station, an ideal place to build dense developments. Plus, the town could use some more homes for young people and young families, to stop them being priced out and the town being populated exclusively by older people. All my friends are forced to buy much further out from London, away from our friends and family, even though we earn good salaries. This cannot be right. Please ignore the loud naysayers and support this development for the good of the town and its young people."/>
