Comments	<input type="text" value="This is a Garden City, these sort of flats are not the intention or agreement when first built. We have a beautiful town centre and an ugly high rise is about as far removed from embracing this as is possible. Also not 200 yards away your putting cycle lanes and using pollution as the reason. Look up how much pollution these flats will cause year in year out without the building of them on top of that. Please explain the logic of this to me!"/>
