Comments	<input type="text" value="Tower blocks completely go against the ethos of the Garden City. This will not provide adequate indoor and outdoor space for families, it does not provide anywhere near enough green space, it is a massive over development of the site, it will generate far too much traffic in an already busy area with inadequate local roads and it will completely dominate the skyline. It doesn't fit in WGC in any way and given the location risks splitting the town in half making east/west movement almost impossible."/>
