Comments	<input type="text" value="The proposed application for high rise flats in the said location is detrimental to the whole ethos of Welwyn garden city. I have grown up here and have always felt Privileged to do so as it has always been a beautiful 'garden' city which would be ruined by high rise blocks of flats. My great grandfather helped build the shredded wheat factory and I feel a connection to the area. To even consider such building within a beautiful town is ludicrous. We now have less schools, no hospital and no infrastructure to cater for the residence as it is...adding to the community to that extent will have a devastating effect on our town. I believe the council should take the opportunity to agree planning for something that will cater for all rather than just sell and destroy our landscape. The unused office buildings would be better put to use for residential conversion as I'm sure that there will be more left empty due to covid. Use what we have and develop our employment and social opportunities."/>
