Comments	<input type="text" value="Please can you reconsider these plans, the town infrastructure such as roads, paths will all suffer due to the increase in footfall and vehicles, we have limited doctors surgery's and schools as it is and goes completely against the ethos of this being a garden city, you have the ability to put a stop to it before it's too late,create a wooded green space in the wheat quarter if possible such as the campus, maybe a small restaurant but not high rise flats, the public house opposite had to keep its design based upon Waitrose, why is this broadwater project any different? It's not in keeping with the town even if it is replacing commercial properties"/>
