Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="My family and friends are proud of the heritage and history of our lovely town. Looking at this application which was one now 2 and the more than double the number of properties added with the height of the buildings which are obscene. Where are the facilities for schools doctors and dentists. The additional traffic and lack of parking will cause problems in the surrounding streets. What century are we living in because where is the drive from our council for carbon zero buildings built in line with our heritage and proximity to nature and the wild, not a concrete jungle dwarfing our iconic Nabisco silo. This application surely cannot fit your brief for the future of our town or is it the greed of developers that is fuelling the council desire to allow this monstrosity to be approved shame on you this should of been put in the bin along with the other two applications. Please reject this application"/>
