Comments	<input type="text" value="I believe that this development is not suitable for a garden city. The amount of storeys is too high. Where are all the children of these new families to the area going to go to school. The schools in WGC are already oversubscribed. Has any of this been considered. Doctors, dentists etc. Extra traffic on the roads. We need more social housing than just a small percentage no more private developments which are not affordable for average working families."/>
