<b>Comments</b>	<input type="text" value="I use welwyn garden city train station regularly and at rush hour hundreds of people use this station already. The station needs new infrastructure to support passenger numbers as is. If you build housing developments next to the station, this will increase numbers on the trains significantly and the station won't be able to cope. This is just one example, the same can be applied to many other services from health care to waste disposal. This is a garden city, please stop this madness."/>
