| Comments | <input type="text" value="This development is out of keeping with WGC, the buildings are too tall and they are in the main flats, where will these families move to when the flats become too small. There are no additional schools in here, no leisure facilities either. This is a development for making money out of housing rather than delivering sustainable long term housing. The recent development up the road has already become tired and run down looking. I certainly wouldn't walk through it at night. We need houses not flats. Where are the gardens? The allotments? The playgrounds? The swimming pool? This is not in keeping with the councils own development plan."/> |
